

Today the first edition of our ASIPINEWS for the period 2018-2021 comes to you. Through this newsletter we will keep you informed of the work we do in the Association, the impact generated by the actions of all of us who have the honor of being part of it, as well as the details of our upcoming events, new members, among others.

This will be a bi-monthly newsletter and our intention is to be a vehicle of information in both directions so we would love to receive your suggestions and comments to secretaria@asipi.org.

Thanks for reading us!

ASIPI at the Tribute to Luis Otavio Pimentel

Our president, Elisabeth Siemsen, participated on February 18 in the event of ABPI in tribute to Luis Otavio Pimentel, outgoing president of the National Institute of Industrial Property (INPI) of Brazil. It was a well-deserved recognition for his great work during all the years that he was in charge of the INPI and we can only hope for many successes in the projects he undertakes.

Working Committees

Our 25 Working Committees are formed and their Presidents and Secretaries are contacting their members to start working. We are very excited with the response received from our membership and certain that this interest in the Committees will be reflected in the work that is carried out within each one of them.

The Working Committees will hold their first face-to-face meeting on March 31 in Los Cabos, and we will keep you informed about their news.

Roundtables on Sports Law

We invite our National Delegates to organize roundtables in their countries on Sports Law, on the occasion of World IP Day, which this year will deal with this topic.

This is an Initiative of the Sports Law Committee of our Association who has suggested two topics to be chosen by our Delegates and which are the following:

- Interface between IP and Technology applied to sports
- Interface between the IP and the Image Rights of the Athletes.
- Does the image have the aptitude to become a brand? Can I protect the trademark image?

Soon our Delegates will inform you of the day and time of these roundtables so that they can be programmed and accompany us.
